"Group Theory International" Online Seminar

Vitaly Roman'kov

(Omsk State University, Omsk, Russia)

"Algorithmic theory of solvable groups"

Thursday, Nov 3, noon (New York Time).

Abstract:

We observe known algorithmic results on decidability, complexity and practicality in the theory of solvable groups. We also discuss open questions and perspectives in the theory.

Next presentation: **Nov 17, 2011.** *TBA*

Algebraic Cryptography Center
