FAST asks for donations to help the Philippines

The Filipino Association of Stevens Technology wants to reach out to the Stevens community to help out the victims of the **Philippines Typhoon Ondoy** that hit Manila on September 26. The tragedy took more than 300 lives and displaced over 430,000 people. It's the worst flooding recorded in the Philippines since 1967. Manila and surrounding areas were lashed with heavy rains and flash floods for nine hours, leaving some areas under 20 feet of water. The capital and 23 other provinces have been declared under a STATE OF CALAMITY.

FAST is accepting donations of any kind that will be sent to the Philippines as soon as possible to help the victims that were affected. Please help in any way you can.

Salamat po and mabuhay. Thank you and long live and prosper.
