Master's Thesis

A Masters' thesis may be offered for five to ten graduate credits in the School of Engineering and The School of Sciences & Liberal Arts and from 6 to 12 credits in The School of Technology Management subject to the following faculty rules promulgated April 18, 1979 and amended by the Graduate Committee Spring 2000:

- 1. The thesis advisor must approve assignment of more than five (or six) credits.
2. All theses require two readers.
3. For any thesis more than five or (six credits in the School of Technology Management) there must be a reader in addition to the advisor, and both the reader and advisor must sign the title page. In addition, there must be a scheduled public defense of the thesis. A department may require defense for a five-six-credit thesis. In all cases, the above are minimum requirements.
4. A letter grade A, B, or C will be ascribed by the advisor to every thesis.

Additional thesis requirements, if any, vary with the departments. Consult with your advisor regarding additional requirements.

Note:

- The thesis must be written in accordance with the "Specifications for Master's Thesis and Doctoral Dissertations," available from the Graduate School and The S.C. Williams Library.
Three copies of the thesis and two copies of the abstract must be submitted to The S.C. Williams Library.
Please refer to the Academic Calendar for submission deadlines.

Please return this form to the Graduate School for any thesis offered for more than five credits.
