

Robert Crooks Stanley Graduate Fellowship in Engineering and Science

Nominations are now open for the Stanley Fellowship. The fellowship is usually awarded on an academic-year basis in the spring for the following fall and includes both tuition and stipend. Nominees must be full-time, United States citizens pursuing a doctorate or master's degree and maintaining a 3.5 grade point average. Preference is given to students in a Ph.D. program.

Please complete this application form and submit it to your department director. The department director will recommend qualified students to the Stanley Fellowship committee for consideration. The deadline for application submission is February
