I find it interesting how most of my college and professional success stories can be traced back to STEP. The program has a highly-dedicated staff, diverse student members and strong alumni network you can absolutely depend on.

THE JOURNEY INSPIRES US.
STEP was an experience that not every Stevens student gets to participate in. The lessons learned and the relationships formed was something that will stick with me forever. I can truly say that STEP was my home on campus.”

Tiffany Smith ’11
Project Engineer
Creamer Environmental Inc.

EOF is a New Jersey financial aid program funded by the Office of the Secretary of Higher Education. It provides eligible New Jersey residents with a monetary award and support services. EOF students must meet financial and other eligibility requirements established by the state.

At Stevens, the EOF program is administered through STEP. The services offered through STEP are available to all EOF students. EOF students must remain in good standing with the program to retain their annual eligibility for the EOF grant.
