

**STEVENS**  
INSTITUTE of TECHNOLOGY  
School of Business

# The Undergraduate Experience

**What do you want in a college?** A storied past or a focus on the future? The big city or the leafy campus? A large network of alumni and recruiters or a tight-knit community?

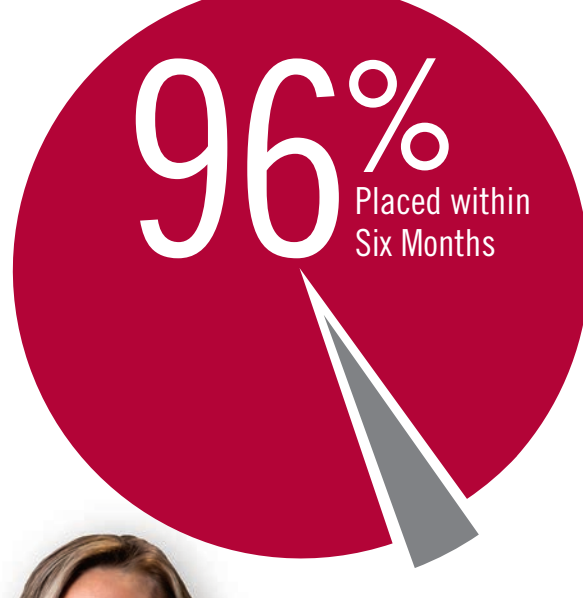

You can make trade-offs — or you can choose Stevens.

Our scenic campus, in one of the nation's liveliest small cities, is an exceptional place to learn, explore and grow. And our tech emphasis ensures you graduate with the cutting-edge skills and perspective needed to excel in tomorrow's workplace.

Average Starting Salary

“Stevens challenged me to be more technical and analytical,” says Annie, who started climbing the ranks at Goldman Sachs immediately after graduation. “And it’s where I built a network that has helped me incredibly with my own growth — personally and professionally.”

➤ Annie DeStefano '12, Vice President for Fintech, Silicon Valley Bank

# #12

Best Schools for Internships

PRINCETON REVIEW

Turn your passions into pathways at Stevens. Here, you'll be encouraged to explore novel ideas and awaken new talents in classes and competitions, and on internships and projects.

### Research

You'll work alongside faculty to study real problems and gain insight on the possibilities technology creates at work.

### Student-Managed Investment Fund

The closest you'll get to Wall Street without crossing the river. Build models and investment savvy in our one-of-a-kind financial analytics and data visualization labs, as you manage part of the university's endowment.

### Senior Design

This capstone experience is where you'll apply all you've learned in launching a startup, working with a company on a consulting project or conducting in-depth research, all in close collaboration with peers, faculty and industry stakeholders.

Stevens is where Marques — better known as MKBHD — upgraded his YouTube channel from hobby to empire. Today, 10 million subscribers tune in for his insights on consumer tech.

“A lot of my classes, especially in marketing, were helpful in building the brand,” he says.

➤ Marques Brownlee '15, Tech Influencer
