The 2nd Round Interview / Site Visit
What to Expect

• Expect the site interview to be more in-depth than on-campus interview, as you likely will be interviewing with several managers, the people most likely to become your supervisor.

• Expect to interview with several people at the same time or to rotate among several interviewers (up to 5 or 6). You may be at the site all day.

• Expect to meet with HR, perhaps the same person you met on campus.

• Expect to be in a group of several other candidates (some from other schools). You may rotate around as a group, or you may rotate around individually. You may have lunch together with managers as a group of candidates.

• Expect to be asked some of the same questions by several interviewers.

• Expect to be asked to fill out an application upon arriving at the site.
