

We your babysitters, Are your soccer coaches, your swimming coaches.

We are faculty, staff, students and alumni who are involved in the community. More than 2,500 of us support Hoboken's churches, schools and cultural and civic organizations.

- ▶ **We are the volunteers** who set up and break down Hoboken's Fall and Spring art and music festivals, and who clean up the city's parks and garages. We are the tutors who work in schools and after-school programs providing help with reading, math and other subjects. We are the athletes who climbed 25 flights of stairs to deliver water and medicine to the elderly during Hurricane Sandy—more than 300 of us donated more than 2,000 hours during the recovery.
- ▶ **We are the staff who work with Hoboken's K-12 schools,** contributing to the improvement of science, technology, mathematics, reading and other programs over more than 25 years. We have conducted programs that have benefited more than 250 Hoboken teachers and thousands of Hoboken students through training and in-class support, through contributions of materials and equipment, and through summer camps for Hoboken students.
- ▶ **We are the researchers who are finding solutions** to urban flooding and coastal resilience problems, who are creating personalized treatments for resistant forms of cancer, who are improving the security of our nation's financial systems and our ports and coasts, and who are developing new energy solutions for more reliable energy and a more sustainable planet.
- ▶ **We are the teachers who ignite the students** who go on to start companies, to create jobs and to lead major international corporations.
- ▶ **We are the site** of annual State of the City addresses, inauguration ceremonies, graduation ceremonies, NJ Tech Meetups and TedX conferences.
- ▶ **We are the campus** where you walk your dog, enjoy the view and go for a run.

Stevens. We are Hoboken.
