Unique Learning Opportunities for Students

The Symposium will feature senior executives and homeland security professionals discussing new enforcement. Keynote speakers include representatives from the U.S. Coast Guard Research and Development Center (RDC), Customs and Border Protection (CBP), State Department, Federal Bureau of Investigation (FBI), and several academic institutions.

The agenda and event participation will be coordinated through the Office of Intelligence and Analysis. The event is expected to draw representatives from the telecommunications, pharmaceutical, financial services, and energy sectors.

Threats and Countermeasures: Critical Issues and Case Studies

Call for Papers

The Maritime Security and Intelligence Journal is seeking papers from researchers, practitioners, and decision-makers from academia, industry, the non-profit sector, and government. The journal is particularly interested in papers that address new research about maritime security and intelligence issues. The journal welcomes both research articles and policy papers.

Deadlines for Submission

- Manuscript submission: December 1, 2018
- Final manuscript submission: March 1, 2019

For more information, visit https://www.maritimejournal.org for details and instructions for authors.

Maritime Security and Intelligence Journal

The International Maritime Security and Intelligence Journal is a peer-reviewed journal that publishes research and analysis on maritime security and intelligence issues. The journal is published by the Maritime Security and Intelligence Program (MSIP) at the Stevens Institute of Technology and the Center for Maritime Studies at the University of New Haven.

About the Conference

The Maritime Security and Intelligence (MSI) and Homeland Security (HS) Programs at the Stevens Institute of Technology and the Center for Maritime Studies at the University of New Haven are hosting the 2018 Maritime Security and Intelligence (MSI) Conference. The conference will bring together researchers, practitioners, and decision-makers from academia, industry, and government to discuss new research and analysis on maritime security and intelligence issues.

Innovative Solutions to Aid in Search and Rescue

The U.S. Coast Guard Challenge Seeks Innovative Solutions to Aid in Search and Rescue. The U.S. Coast Guard Research and Development Center (RDC) seeks innovative solutions to aid in search and rescue. The challenge is open to U.S.-based universities, colleges, and non-profit organizations.
