RISING DEMAND

Demand for a Stevens education has grown significantly since 2011, concurrent with both a dramatic increase in the academic profile of enrolled students and an increase in the number of enrolled students from underserved communities. This planned growth has catalyzed construction of a new university center and residential towers to house 1,000 students, on schedule to open in spring 2022. Stevens’ rigorous technology-infused education that emphasizes experiential learning, coupled with a solid student support structure, consistently produces graduates with enormous potential.

INCREASING ACCESS

New initiatives such as Stevens ACES (Accessing Careers in Engineering and Science) and the A. James Clark Scholars program have significantly improved access to a Stevens education — both pre-college programs and undergraduate degrees — for underserved and underrepresented minority students. The inclusion of these groups in the freshman cohort increased 152% from 2011 to 2020. Dedicated efforts have also increased the number of women pursuing STEM degrees at Stevens, as well as the representation of women in the freshman cohort.
Remarkable Outcomes for the Class of 2020

Undergraduate research, entrepreneurship coursework, cooperative education, internships and extensive community service activities distinguish the Stevens undergraduate experience. More than 1,000 companies — and more than 100 of the nation’s Fortune 500 — recruit at Stevens. Business, arts, and humanities graduates are just as successful in the job market as STEM graduates, due to the heavy emphasis on technology throughout all programs.

Significant Return on Investment

With a graduation rate well above the national average, a career-fueling educational experience and some of the nation’s highest starting and mid-career salaries, Stevens helps students realize a robust return on their education investment. In addition, Stevens is one of only three schools in the nation where the salaries of women graduates exceed those of male graduates.

#2 in the U.S. for gender salary equity (as reported in Forbes, June 2018)

#12 for mid-career salary of graduates (PayScale, 2020-21 College Salary Report)

#17 for return on investment (PayScale, 2020 College ROI Report)
