

January 29, 2016

To the Stevens Community,

I'm pleased to share the [annual report of our progress](#) on our community's implementation of the Strategic Plan, *The Future. Ours to Create*. This report summarizes progress across the plan's 46 multidimensional goals in six categories:

- Undergraduate Studies and Experience
- Graduate Studies and Experience
- Research and Scholarship
- Culture and Governance
- Internal Bridges
- External Bridges

I'm pleased to report that, thanks to the resolute and determined efforts of many faculty, staff, members of the administration and our extended community of alumni and friends, Stevens has made remarkable progress toward the ambitious goals that our community developed in 2011-12 in pursuit of our vision "to become a premier, student-centric technological research university."

I invite you to review the [Year 3 strategic plan implementation report](#) and am certain that you will be both impressed and inspired by the very significant changes we have all made in a short time. While there is much work still to do, we should take pride in our accomplishments to date.

Thank you for your dedication, your collaboration, and your engagement in our joint efforts to propel Stevens to achieve its lofty goals.

Per aspera ad astra,

Nariman Farvardin
President
