Abstract

Oasis is a resource designed with the user in mind that enables users to easily search for nearby shelters. Women using the app can find up to 80 shelters in their area with just a click of a button. In addition to nearby shelters, Oasis also provides services to locate shelters based on specific amenities that they provide.

Problem

Women who are victims of homelessness and domestic violence do not have adequate access to facilities and services largely due to information restraints. Many government websites and services are outdated or not maintained properly, meaning that they either provide the wrong information or no information at all.

Statistics

Approximately 39% of all homeless people are women, and there are about 40,000 homeless women in the New York, New Jersey, and Pennsylvania areas alone. About 90% of the women we surveyed did not know about welfare services in their area or how to find out about them.

Advanced Filtrations of Shelters and Services

Collection of helpful resources directly obtained from local shelters and services. Oasis specializes it by guaranteeing the accuracy of website link, contacts and details of programs.
